

About SAVER, Inc.

SAVER was founded in 1995 and is a privately held company. We are a dedicated company that is trying to improve the environment worldwide through the use of alternative and environmentally friendly products, as well as protecting people in case a disaster strikes. Saver is involved in water, and alternative energy equipment (wireless solar/wind power generators). Over the last several years, the company has expanded its scope by developing emergency preparedness kits for home, businesses, schools, state & city governments, and the military. Saver is centrally located in Indianapolis, IN. for quick product distribution to points all over the United States. The management team at Saver has many years experience in the alternative energy and the emergency response field.
